Unit Test 26/10/2020

Visual Database Programming

* Required

1. Email address *

_____

2. Name *

_____

3. Class *

Mark only one oval.

◯ TYBCA 1

◯ TYBCA 2

4. Roll No. *

_____

5. 1) Application is a computer program designed to help people perform an activity *

Mark only one oval.

◯ True

◯ False

6.   2) Visual Studio is an _____ from Microsoft *

Mark only one oval.

   ( ) application

   ( ) integrated development environment

   ( ) platform

   ( ) None of the above

7.   3) _____ creates an application using the components provided by the Visual Basic program itself. *

Mark only one oval.

   ( ) VB

   ( ) Visual Studio

   ( ) VB.net

   ( ) All of the above

8.   4) Programming in VB can be described as _____ *

Mark only one oval.

   ( ) visually arranging components or controls on a form

   ( ) specifying attributes and actions for those components

   ( ) writing additional lines of code for more functionality

   ( ) All of the above

9.   5) Multithreaded applications cannot be developed by VB .NET. *

Mark only one oval.

◯ True

◯ False

10.   6) .NET framework is a virtual machine for compiling and executing programs written in different .NET programming languages. *

Mark only one oval.

◯ True

◯ False

11.   7) A programmer can develop a simple program without writing much code in VB. *

Mark only one oval.

◯ True

◯ False

12.   8) _____is just like the header files in C/C++ and packages in the java *

Mark only one oval.

◯ FCL

◯ CLS

◯ CLR

◯ None of the above

13. 9) lnstalling _____ basically is the installation of CLR and FCL into the system. *

Mark only one oval.

( ) .NET Framework

( ) Visual Studio

( ) .NET Programming languages

( ) VB

14. 10) The languages which follow the set of rules that are defined by CLS are said to be _____. *

Mark only one oval.

( ) CLS Compliant

( ) CLR Compliant

( ) CTS Compliant

( ) None of the above

15. 11) Set of instructions that are platform independent. *

Mark only one oval.

( ) CTS

( ) CTR

( ) CLS

( ) none of the above

16. 12) The data type system of CLR which is common to all programming languages of .NET is known as _____. *

Mark only one oval.

⬭ MSIL

⬭ CRT

⬭ CTS

⬭ None of the above

17. 13) CLS is a subset of CTS. *

Mark only one oval.

⬭ True

⬭ False

18. 14) Any programming language that conforms to CLI criteria can access a _____. *

Mark only one oval.

⬭ binary library

⬭ common class library

⬭ Assembly

⬭ None of the above

19. 15) The .NET assembly is the standard for components developed with the Microsoft.NET *

Mark only one oval.

⬭ True

⬭ False

20. 16) Dot NET assemblies might exist as the executable (.exe) file or _____ file. *

Mark only one oval.

◯ DLL

◯ tertiary

◯ unary

◯ binary

21. 17) _____ provides tools for designing, executing, and debugging the applications. *

Mark only one oval.

◯ IDE

◯ VB

◯ VB .NET

◯ None of the above

22. 18) As one writes the code, the IDE provides tools for locating and fixing errors. *

Mark only one oval.

◯ True

◯ False

23. 19) When Visual Studio .NET is executed, _____ is displayed. *

Mark only one oval.

⬭ list of commands

⬭ Start Page

⬭ code

⬭ none of the above

24. 20) Web applications are programs that run inside some web server to fulfil the user requests. *

Mark only one oval.

⬭ True

⬭ False

25. 21) A _____cannot be executed. *

Mark only one oval.

⬭ Class library

⬭ Mobile Applications

⬭ Web Applications

⬭ All of the above

26. 22) Windows Control Library contains user defined web controls to be used by Windows applications. *

Mark only one oval.

⬭ True

⬭ False

27.   23) Menus contain groups of _____. *

Mark only one oval.

◯ commands

◯ tools

◯ related commands

◯ None of the above

28.   24) Edit menu contains commands for opening and closing the projects. *

Mark only one oval.

◯ True

◯ False

29.   25) _____ on the left hand side of the Start Page displays its contents. *

Mark only one oval.

◯ All of the below

◯ Double clicking

◯ Selecting a link

◯ Clicking a link

Google Forms
